

## **I. AMENDMENT**

*Please replace the paragraph beginning on page 26, line 11, with the following re-written paragraph:*

<sup>1</sup> The labeling reaction results and parameter evaluation studies reported in Tables 2 and 3 were performed with 2B8 derived from a CHO cell expression system; The MX-DTPA conjugate was prepared using a protocol similar to that used for the previously characterized 2B8-49. Reactions were performed using approximately 3 mg of antibody and a 4:1 molar ratio of chelator to antibody as described in co-owned, copending Application Serial No. 09/259,337, concurrently filed and herein incorporated by reference.
